

BIBO X

Boiling, ice-cold and filtered water from one beautiful machine on your counter. It's plumbed into the mains, so there are no bottles to carry and no kettle to wait for.

- **Slide to perfect.** Set the exact temperature (30–98 °C, to the degree) and volume (50–1,500 ml) with simple on-screen sliders.
- **Custom cups.** Save up to 12 favourites, like rooibos at 90 °C, a flat white at 80 °C or a 750 ml bottle of ice water, and pour each with one touch.
- **Advanced sleep modes.** Set a weekly power schedule and inactivity sleep, so it rests at night and over weekends and is ready when you are.
- **Clean, safe water.** Carbon block filter plus a UV-C reactor. It won't pour a drop without a filter fitted.
- **Smart and safe.** Touch screen, cup sensor, child lock on hot, and filter alerts on screen.

SPECIFICATIONS

Dimensions	312 W × 359 D × 385 H mm (371 mm deep to the carry handle)
Weight	12.5 kg
People served	Up to 60 people*
Water on tap	Boiling, chilled and room temperature, all filtered
Output	Hot up to 15 L per hour; chilled up to 7 L per hour
Temperature	Hot 70–96 °C (factory 96 °C); cold 4–16 °C (factory 6 °C); custom pours 30–98 °C
Custom pours	50–1,500 ml in 10 ml steps; up to 12 saved custom cups
Treatment	0.5 micron carbon block filter (NSF/ANSI 42 & 53) + UV-C reactor
Filter life	12 months or 10,000 L, whichever comes first; the machine recognises the filter and shows life remaining
Power supply	220–240 V AC, 50 Hz, standard 3-pin plug
Rated power / energy use	1,700 W max / 0.71 kWh per 24 h
Energy saving	EcoMode: weekly power schedule + inactivity sleep
Water pressure	1–6 bar
Safety	Cup sensor, child lock on hot, filter interlock, IPX5
Colours	Charcoal, Pebble
Installation	On the counter, not inside a cabinet; connects to cold mains water

* People served is based on typical office use.
